Dr Olga Iranzo
Cancer therapies

Pr Mehdi Bennidir
Natural products

Dr Paolo Melchiorre
Photochemistry

Since 1994, the **Young Research Fellows Meeting YRFM** has brought together young European scientists and distinguished international speakers to exchange cutting-edge research in medicinal chemistry. Covering topics from chemical biology and nanotechnologies to synthetic methodologies and diagnostic tools, it offers a unique forum to explore current challenges and emerging trends, while fostering professional development through workshops and industry involvement.

33rd SCT-YOUNG RESEARCH FELLOWS MEETING
33^{èmes} JOURNEES JEUNES CHERCHEURS de la SCT

Faculty of Pharmacy, Aix Marseille University
Marseille, France - 11-13 February 2026

amU Faculté
de pharmacie
Aix Marseille Université

SCT promotes excellence in drug discovery and gives young scientists valuable opportunities to communicate and connect.

(Numerous oral presentations, flash poster slots, and poster sessions available for young researchers)

Awards for the best oral and poster presentations

Professional workshops and networking opportunities with academic and industry leaders to support young professionals in their career development

(Simulated job interviews with industry & academic recruiters, CV tips, and funding guidance to boost your career!)

Come and join us in a stimulating environment for scientific exchange, enriched with convivial moments throughout the congress.
